### **DETAILED ACTION**

This Office Action is in response to an RCE filed on 4/15/2005.

Currently, claims 1-20 are present. Claims 15 and 20 has been canceled, and claims 1-11 have been withdrawn from consideration.

#### ***Election/Restrictions***

1. This application is in condition for allowance except for the presence of claims 1-11 directed to a device that is non-elected without traverse. Accordingly, claims 1-11 have been cancelled.

#### ***Allowable Subject Matter***

2. Claims 12-14 and 16-19 are allowed.

3. The following is an examiner's statement of reasons for allowance: the prior art, either singly or in combination fails to anticipate or render obvious, the limitations of:

... a silicon-rich silicon oxide layer, which is substantially opaque to UV radiation and has a refractive index (R. I.) greater than 1.6, on an upper surface of the interlayer dielectric, wherein the silicon-rich silicon oxide layer has a thickness of 400Å to 600Å, as required by claim 12.

The application is found allowable by the inclusion of allowable subject matter that was previously stated in canceled claim 20.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
